Search Engine Maths

1. **Adding or subtracting** keywords...
Put a plus or minus sign in front of any word to *improve your search!*
 - + before any keyword to **include** it.
 - before any keyword to **exclude** it.

2. **Phrase** searches...
Put “speech marks” to make your search much *more specific!*

E.g. Searching for “Islamic traditions” searches for those words in that order!

3. Combine **phrase searches** with **adding & subtracting** for really powerful searches...

*E.g. “sports magazines” +kids is different to...
kids sports magazines*

Always...

- Read the results **BEFORE** clicking!
- Use **Ctrl F** to search for words on the web page you are on.
- Check your **spelling** is correct.
- Use a couple of **different search engines** to compare.
- **Copy & paste the address** into Word to save it for later.

Search engines to try...

www.google.com

www.yahooligans.com

www.yahoo.com

www.tekmom.com/search/

www.metacrawler.com

www.alltheweb.com
